

Sprint 1

Project: Banking System

Team Members: Gerald Mamasalanang, Simone Jake Reyes, Danie Victorioso, Ivan Delumen

Sprint Duration: April 12, 2025 – April 23, 2025

Sprint Planning

Sprint Focus:

- Identify the system's functionalities, scope, and limitations
- Define user needs and expectations
- Break down the system into manageable tasks using Work Breakdown Structure (WBS)
- Create initial timeline and use case diagram

Planned Deliverables:

- User Story
- Use Case Diagram
- Work Breakdown Structure
- Initial Timeline Presentation

Progress Update

Sprint Completion: 100%

Project Completion Percentage: 11.11% (1/9)

Completed Tasks:

- ✓ User Story
- ✓ Use Case Diagram
- ✓ Work Breakdown Structure
- ✓ Initial Timeline Presentation

Sprint Retrospective

What went well:

- Constructing the scope and functionalities was smooth due to active collaboration, sharing of ideas, and the provided proper project specifications and guidelines.

What could be improved:

- Better understanding of individual roles and how tasks interconnect.

What needs to be done next:

- Determine the necessary tech stacks for the system
- Define the system architecture
